

ABSTRACT

Producing an article is one important aspect in language blended learning method is an learning in order to stimulate the creativity of learners, particularly on learning produces anecdotes text. In connection with this, the authors are interested in doing research learning application off blended learning methods in produces anecdotes text in class X SMK Pakuan Lembang West Bandung of the school year 2016/2017.

Formulation of the problem that the authors ask is: (1) can the authors plan, implement, and assess learning produces anecdotes text in class X SMK Pakuan Lembang West Bandung?; (2) can the class X SMK Pakuan Lembang West Bandung produces anecdotes text the structure, linguistic characteristics, and proper writing conventions?; (3) precise blended learning methods in producing anecdotes text X SMK Pakuan Lembang West Bandung?

The hypothesis that writer formulated are: (1) the author is able to plan , implement , and assess learning produces anecdotes text in class X SMK Pakuan Lembang West Bandung ; (2) student of class in class X SMK Pakuan Lembang West Bandung capable of produces anecdotes text the structure, linguistic characteristics, and proper writing conventions; (3) blended learning methods appropriately used in producing produces anecdotes text in class X SMK Pakuan Lembang West Bandung .

Based on the result of analysis on the planning of learning, implementation of learning, and the result evaluation , the authors can draw the following conclusions. (1) The authors can afford able to carry out learning to application off blended learning methods in produces anecdotes text in class X SMK Pakuan Lembang West Bandung. This is evident from the assessment of teachers' Indonesian to planning the implementation of learning. Total average value obtained by the author is 3,6. So, in this case the author succeeded in conducting research on learning to application off blended learning methods in produces anecdotes text in class X SMK Pakuan Lembang West Bandung. (2) Students of class X TKJ SMK Pakuan Lembang West Bandung, capable of producing text anecdotal structure, linguistic, characteristics and proper writing conventions. It is evident, with the average yield of pretest and posttest. The average value of pretest that is 1,7 while the average value postes 3,0. Thus, the difference in value of the average pretest and posttest is 1,3. This outcome proves that the learning capability of producing anecdotes text in class X SMK Pakuan Lembang West Bandung has increased. (3) Blended learning methods appropriately used in producing the text of anecdotes. It is proved from the results of statistical calculations with $1,3 > 1,02$ at 95% confidence level and db 20. Based on these data, the authors conclude learning learning application off blended learning methods in produces anecdotes text in class X SMK Pakuan Lembang West Bandung successful.

Key words: Implementation, blended learning method, producing, text anecdotes
