ABSTRACT

This study aims to provide an overview of the level of student understanding in the religious aspect and gauge the level of readability students for the selection of teaching materials by using Procedure Klose. Teaching materials used in this study is the text of the short story of the hiatus in accordance with religious elements.

Formulation of the problem that the authors ask is: a. Can writers develop teaching materials producing short story text oriented to the formation of religious attitudes in an attempt selecting teaching materials for students of class XI ?; b. Is the short story teaching materials developed in accordance with the formation of religious attitude indicator ?; c. Appropriate teaching materials producing short story text seen the establishment of a religious attitude of readability level?

The hypothesis that the writer formulated as follows: a. The author was able to develop teaching materials producing short story text-oriented estab formation of religious attitudes in an attempt selecting teaching materials for students of class XI; b. Teaching materials developed in accordance with the indicator forming religious attitude; c. Teaching materials producing short story text formation of religious attitudes in accordance with the level of development of class XI student has tested legibility.

The results of his research as follows.
1. The author is able to develop teaching materials text-oriented stories religious attitude. Based on the results of the assessment has been done to get the average on the short story "regret" by 90% to understanding the religious aspects and 97% for legibility Delisi as teaching materials. Measurement comprehension religious aspects both on the short story "All of His Will" get an average of 84% and 96% for legibility Delisi as teaching materials. Measurement of understanding the religious aspect of the third on the short story "Long Sajadah" earn on average 79% and 98%.

2. The teaching materials are developed in accordance with the indicator forming a religious attitude. This is evidenced by the results of questionnaires suitability of teaching materials that the author of short stories with a religious attitude indicator that is given to the subject teachers Indonesian earn 100% concordance existing short story with a religious attitude indicator.

3. Teaching materials producing short story text formation of religious attitudes in accordance with the level of development of class XI student has tested legibility. This was proven when the authors provide teaching materials to students in the form of short stories, the value obtained students achieve good and excellent categories.

Based on these facts, the authors conclude that all the hypotheses that the writer formulated in this study may be accepted.
