

ABSTRACT

Writing in learning berdasarkan powtoon producing negotiating text serves to establish a decision between parties having different interests that pour into writing. Students presented a video about the negotiations that display and then the students started to develop this framework into a negotiating text intact. One method that can be used in producing the text of this negotiation is a method of inquiry. This method is based on a learning model search and discovery through a systematic process of thinking.

Based on the above, the authors are interested in doing research learning powtoon producing negotiating text by using the inquiry method in class X SMKN 4 Bandung. This study aims to determine the ability of authors in implementing learning powtoon producing negotiating text by using the inquiry method in class X in the negotiating text, and to test the effectiveness of the inquiry method of learning producing negotiating text.

The method I use in this study is a quasi-experimental research with research techniques literature review, trials, tests and analysis. As for the results obtained from the author of the study as follows.

1. The author is able to carry out learning the negotiating text produced by powtoon using the inquiry method. This is evidenced by the ratings given by the Indonesian Teachers SMK Negeri 4 Bandung namely 3.65. Thus the author managed to hold learning powtoon producing negotiating text by using the inquiry method very well.

2. Grade X RPL 3 SMK Negeri 4 Bandung capable of producing negotiating text is short, dense, and obviously based powtoon using the inquiry method. This is evidenced by the learning outcome data obtained by the author while conducting research. The average yield posttest were higher than the average pretest ie ≥ 2.47 to 1.79 with a difference of 0.68 or 1.94%. This shows the increase in student learning outcomes.

3. The inquiry method is effectively used in learning the negotiating text produced by powtoon briefly, solid, and clear. This is evidenced by an increase in student learning and posttest results were higher than the pretest results ≥ 2.47 to 1.79. Method of inquiry has motivated students and attract students before the learning begins.

Based on the above research conclusion, it is evident that the author has conducted research learning learning powtoon producing negotiating text by using the inquiry method in class X RPL 3 SMK Negeri 4 Bandung with excellent results.
