Less successful students in social studies in elementary school has been the subject of complaints / ideas elementary school teachers. In general, students showed less passion, less passionate and less prepared in the following study, so the atmosphere is active, the interaction of teachers and students are very less especially among pupils and students. Students tend to be passive, just accept what is given by the teacher. Through Action Research (PTK) the problem is attempted to be changed by using Cooperative Learning Model Type Team Games Tournament (TGT), with the aim: Applying learning model type Cooperative Learning Team Games Tournament (TGT) to improve student learning outcomes. The use of models Team Games Tournament students in participating in learning activities in the classroom become more vibrant, increased student learning outcomes, so that all learning materials submitted by teachers to students can be absorbed by the student perfectly. Classroom Action Research (PTK) is conducted through two cycles of learning improvement, the subject of a class action is the recipient of fifth grade students the second semester of the 2015/2016 Tilil SD Negeri 4 Bandung. Data collected through the evaluation results of the observational record. The research showed that the average value of students during the repair process from the first cycle to the second cycle increased. Minimum Criteria for completeness Presentation (KKM) for the improvement of learning is also increased, early in the first cycle is only 66% and in the second cycle to 100%. From the results of the implementation of the PTK, the first and second cycles can be concluded that the model of learning by using Team Games Tournament can improve student learning outcomes SDN Tilil grade 4 Bandung in social studies materials Battle against invaders.
