ABSTRACT

This study aims to improve motivation and learning outcomes of fourth grade students SDS Al Amin Bandung on the theme of cultural diversity beauty of togetherness subtema nation by using Project Based Learning model of type Make A Match. This research is based on the lack of students understand the material on the sub-theme of cultural diversity and the low motivation of my people have an impact on learning outcomes rather low. This study uses a Class Action Research (PTK) with system cycle of planning, implementation, observation and reflection carried out in three cycles. Evaluation techniques used are engineering test and non test. Mechanical tests are used to determine student learning outcomes, while the non-test techniques are used to determine the activity and motivation of students towards learning implementation using Project Based Learning model of type Make A Match and researcher performance as a teacher. The instrument used is the observation sheet RPP assessment, observation sheet implementation assessment of learning teacher / researcher, sheet activity assessment and student motivation, sheet, student worksheets and posttest evaluation. The results showed that the use of models Project Based Learning type Make A Match improve motivation and student learning outcomes. This is proved by the results of student learning in the first cycle is only 15%, the second cycle increased to 60% and the third cycle increased to 90% while the motivation of students in the first cycle is only 20%, the second cycle increased to 70% and the third cycle increased to 90% of students declared complete on the whole student as many as 20 people. It's certainly already exceeded the target of 80% of students who otherwise completed. Thus, the use of Project Based Learning model of type Make A Match proved to be very influential on the increase motivation and student learning outcomes.
