

## ABSTRACT

Learning is a process of change in the human personality and the changes will be shown in the form of improved quality and quantity of a person's behavior. Therefore, the authors are interested in doing research entitled "Learning To abstract Text Reports Observations using the inquiry method in class X SMA Kartika Bandung XIX-1 in the school year 2015/2016."

Research Problems in this case as follows. (1) Can the writer implementing learning abstracting the text of the report on the observation by using the method of inquiry in Class X SMA Kartika XIX-1 Bandung (2) Mampukah class X SMA Kartika XIX-1 Bandung following study abstracts Text Reports Observations using the Inquiry ? (3) Precise methods of inquiry used to text abstracts study reports the results of observations in Class X SMA Kartika XIX-1 Bandung?

The hypothesis that the writer formulated as follows. (1) The authors were able to carry out the study abstracts the text of the report on the observation by using the method of inquiry in Class X SMA Kartika XIX-1 Bandung. (2) students of class Class X SMA Kartika Bandung XIX-1 capable of abstracting the text of the report on the observation by using themes, text structure, characteristics kebahasaan, and proper writing conventions. (3) The method used in the proper inquiry learning abstracting the text of the report on the observation in class X SMA Kartika XIX-1 Bandung.

- a. The author is able to carry out the activities pembelajaran abstracting the text of the report on the observation This is evidenced by the results of Indonesian teacher ratings on the preparation and implementation of learning in class X SMA Kartika XIX IIS 2-1 Bandung and in the academic year 2015/2016, the authors obtain an average value for lesson preparation of 82.2 and an average value of 95.1 for the implementation of learning. It is proved that the author is able to plan and implement learning abstracting the text of the report on the observation by using the inquiry method in class X SMA Kartika XIX IIS 2-1 Bandung and in the academic year 2015/2016.
- b. class X IIS 2 SMA Kartika XIX-1 capable of abstracting the text of the report on the observation using the method of inquiry This is evidenced by the results of the pre-test with an average of 82.2 and post-test results with an average of 95.1. This difference indicates the difference of 12.9 resulting in an increase of the pre-test and post-test of 12.9, equivalent to 64.5%.
- c. effective method of inquiry used in learning abstracting the text of the report on the observation in class X SMA Kartika XIX IIS 2-1 in the academic year 2015 / 2016.Hal This can be evidenced by the results of statistical tests  
Vii  
thitung> ttable, ie, 3.3> 1.734 at the level of 95% with a significant level of 5% and 19 degrees of freedom.  
Thus the results of the evaluation is analyzed. Based on these data, it can be concluded that the three hypotheses that the authors propose acceptable.

Keywords: Learning, abstracting, text reports on the results of observation, inquiry method
