ABSTRAK

This study aims to improve results learn students through the model make a match in the learning materials ips on the character of the characters in the history of the kingdom Hindu-Buddha and Islam in Indonesia. The research action classes held in the V SDN 6 Cikidang. This study in the background with a state of students in class V SDN 6 Cikidang that is difficult in absorb learning or material in learning due to in the teacher often using the convensional lecture, while with other models learning, especially the model make a match had never run. This study using the research action class (PTK) to use the system cycle consisting of planning , the observations, analysis and reflection. This study implemented in two cycle. In each cycle implemented the activities of learning by applying a model of learning make a match consisting of five stages, namely : 1. Formulate the problem, 2. The hypotesis, 3. Test answers, 4. draw the conclusion, 5. Apply the conclusion and clanking. The techniques evaluation used in this study is a test and a test. Teknik tests to know the results of learning students, and technique non testy to know the student activities. The results of research shows that uses a model of learning make a match can imprive results learn students. It can be seen from the value of the well blended the results of learning students from cycle I to cycle II, ie 75,89 with the category of good, 83,78 with the category of very good. The conclusions were obtained from this research is that the use of a model of learning make a match very suportive of the results of learning materials students in the characters of the kingdom Hindu-Buddha and Islam in Indonesia in the 5 elementary school. thus, the use of the model make a match can be used as one of the model of learning for apply on learning IPS.

Key words : Cooperative Learning, Make a match, the results of learning.
