

ABSTRACT

**Usage Inquiry Model with Film Media in Identification of Intrinsic Elements
Folklore to Improve Listening Ability of Students in Class V Elementary
School of Paseh 2 Subdistrict Paseh, Sumedang Regency**

This research is motivated by problems of poor listening skills lessons of Indonesian language study in class V elementary school Paseh 2 is caused the less attractive learning process, thus making student listening skills poorly. The problems to be studied include the listening ability to students of class V elementary school Paseh 2 before using the medium of film in identifying the intrinsic elements of folklore, the steps for using models and media, as well as the listening ability to students of class V elementary school Paseh 2 after using the inquiry model. This study aims to determine the listening ability to students of class V elementary school Paseh 2 before using the inquiry model with the medium of film in identifying the intrinsic elements of folklore, steps for using the inquiry model and media in learning, and the listening ability to students of class V elementary school Paseh 2 after using the inquiry model with the medium of film. This research method using Class Action Research. The objects of the study were students of class V elementary school Paseh 2. The data collection technique used by the researchers was a test, teacher and student activity observation. Based on the results of the research at the stage of pre-cycle 80% of students have not been completed, and 20% of students had been achieved. The results of the activity of students in the first cycle there are five students and second cycles there are 31 students who otherwise completed. Teachers' activities in the first cycle of 78% and 93% the second cycle, while listening to lessons test results of students of class V elementary school Paseh 2 in the first cycle reaches 40% complete and the second cycle reaches 83% were achieved. Thus, learning to use the inquiry model declared successful.

Keywords: inquiry learning model, listening skills, movies media.
