

ABSTRACT

Karang taruna youth organization is the pillar of community participation as the container construction, construction and development of the young generation. Karang Taruna give authority and responsibility to members through various activities in the community to enhance and foster the participation of youth and developing the potential of the younger generation in order to be able to do positive things in society as a form of participation of youth in the life of society. Limitation the problem in this research is (1) How Karang taruna in fostering the participation of youth in the community? (2) what have been the obstacles faced Karang Taruna in fostering youth in order to have a personalized participatory society? (3) How Karang Taruna efforts in fostering youth Cadets in order to have a personalized participatory society? (4) How partisipasi youth after built Karang Taruna in activities in the community? Methods in this study using Qualitative approach with research that is both case studies. Therefore the author aims to understand the object ditelitinya. The design of data collection were used in this research is, observation, interviews, and Documentation Study.

The research results showed that (1) method of Karana Taruna in fostering Participatory personality in society by means of persuasive communication and interactive to the community so that the community know the duties and function of Karang Taruna and do programs that help communities work programs. (2) obstacles in face in fostering participatory personality in the community is the role of the youth now is really very poor, many young men now rarely socialising with the environmental community and the lack of awareness of the lack of insight of nationality, kebhinekkaan, and the application of pancasila values create complete problems among the youth. (3) Efforts Karang Taruna in fostering participatory personality in the community are seeking related activities youth so that youth want to participate in the activities of the coral reef, as well as Efforts Karang Taruna in fostering youth by holding trainings for its members and follow training held Karang Taruna district followed the entire coral Karang Taruna village level. (4) participation of youth against Karang Taruna in fostering participatory personality in the society that is still up and down due to the flurry of each private, yet realize that youth is the next generation of the nation and the country therefore expected more youths could socialize to society because the youth is the successor of the advance regeneration milestones the leader in this nation.

Key words: Karang Taruna, Personality and Parisipatif
