Chapter III
Research Methodology

This chapter presents research methodology that is applied in the research. It is an overview of the research method, research design, data source, technique of collecting data and technique of analyzing data.

3.1. Research Method

Research methodology is used to conduct a research. The method that used in this research is qualitative method. Qualitative research gives you the opportunity to study a real-world setting in its own terms, thereby putting a broad array of study topics at your disposal (Yin, 2011:38). It means that we can learn a real world by using qualitative research because it makes the writer will be closer with the object of problem.

The quality of the findings of qualitative research is directly dependent on the ability, experience and sensitivity of the interviewer or group moderator. This type of research is often less than a survey conducted for expensive and very effective in obtaining information about the communications needs and responses and views on certain communications. In this case often the method of choice in case where the measurement or quantitative survey is not required.

3.2. Research Design

Data were analyzed in this study is the finding slang language in Gun N Roses song lyrics. So that the main source of data is this research is Gun N Roses

song lyrics. This study was descriptive qualitative research for this study describes the characteristics of Gun N Roses song lyrics.

Design procedures to conduct studies, including when, from whom, and under what conditions the data will be obtained. In other words, the design show how it was done, what happens to the object and what data collection procedures used. The design goal of this study is to provide the most valid, accurate answer as possible to the research questions.
