Analyze included into the reading activity, because when it will analyze a text the first thing to do is read. Reading skills will facilitate students in analyzing a text, both in terms of content, structure, and kebahasaannya. In connection with the explanation, the authors are interested in conducting research using inquiry methods.

The problem that the authors ask are (1) Whether the author able to plan, implement and assess the learning to analyzing the rules of language negotiation text focuses on conditional sentences on students of class X SMAN 27 Bandung by using Inkuiri method? (2) Whether class X students of SMAN 27 Bandung able to analyze the linguistic rules of negotiation text focused on conditional sentence using inquiry method? (3) Does the inquiry method effectively used in learning to analyze the linguistic rules of negotiation text focusing on conditional sentences on the students of class X SMAN 27 Bandung?

The results of the study as follows: (1) The author is able to plan, implement and assess learning to analyze the rules of language negotiation text focuses on conditional sentences on students of class X SMAN 27 Bandung using Inkuiri method. This is evident from the results of the average value of planning and implementation of learning amounted to 3.68. (2) Students of class X of SMAN 27 Bandung are able to analyze the linguistic rules of negotiation text focusing on conditional sentence using inquiry method. This is evident from the pretest averages of 16.92 and the mean posttest score of 73.1. Thus, an increase of 58.5. (3) Effective inquiry method used in learning to analyze the linguistic rules of negotiation text focusing on conditional sentence on the students of class X SMAN 27 Bandung. This is evident from the results of statistical calculations with $t_{count} > t_{table}$, ie $27.8 > 23.4$ in 95% confidence level with a significant level of 5% and degrees of freedom 24.

Based on these facts, the authors conclude that the author successfully to do the learning to analyze the linguistic rules of the negotiation text focused on conditional sentences using inquiry methods.

Keywords: analyze, inquiry method, negotiation text.
