**ABSTRACT**

*Writing a review text on the quality of short film works is one of the lessons that facilitates students in the process of developing creativity in expressing the main thoughts, feelings, and ideas. The method of brainstorming is a method to improve the ability of students. In this regard, the authors are interested in doing research on learning to write text reviews on the quality of short film works by paying attention to the structure and linguistic elements using the brainstorming method in class VIII students of SMP Negeri 51 Bandung. The research method that I use is an experimental method, with research techniques literature review, observation, testing, and tests. The results of his research as follows. (1) The author is able to plan and carry out learning to write text reviews about the quality of short film works by taking into account the structure and linguistic elements using the method of brainstorming for eighth grade students. This is evident from the results of the value of planning and learning implementation of 3.89 with a very good category (A). (2) Grade VIII students are able to write text reviews about the quality of short film works. This is proven by the average value of pretest that is equal to 45.4 and the average posttest value is 84.5. So, the difference between the average pretest and posttest scores is 39.1. (3) The method of brainstorming is effectively used in learning to write text reviews about the quality of short film works by taking into account the structure and linguistic elements. This can be proved by the results of the statistical test  $t_{count} > t_{table}$ , namely  $15.93 > 2.05$  in the 95% confidence level with a significant level of 5% and the degree of freedom 27.*

*Based on these facts, the authors conclude that the author succeeded in learning to write text reviews about the quality of short film works by paying attention to the structure and linguistic elements of the method of brainstorming ideas.*
