

## ABSTRACT

European Union Enlargement Process in Western Balkan region have already starting since carrying out of Zagreb Summit in the year 2000 that attended by nations in region of Western Balkan. The Nations agree will fulfill all demand that specified to become the member European Union. Serbia as one of state following the meeting very enthusiastic to join and become the member Uni Europe. But, in the year 2006 then, discussion regarding of negotiation of Stabilisation and Association Agreement representing first step to become the member European Union was desisted. This because of lack of effort by Serbia to fulfill demand European Union that is have incurring to delivery indicted war criminal of Ratko Mladic. For European Union, delivery of Ratko Mladic represent the especial condition approval of Stabilisation and Association Agreement. Piquancy of writer Attention to check is: What was European Union in expected from Enlargement on region of Western Balkan? Last what affect that faced by Serbia as state residing in region of Western Balkan with reference to its desire to join to to become the member Uni Europe?

As for this research target is to know, to exploration. and to describe the policy of European Union Western Balkan with region reference Enlargement program. Hereinafter also wish to know, comprehending and to describe of how its implication to Serbia which wish to join and become the member of European Union. While this research usefulness, by academic can add the khasanah of International Relation science development, specially which is concerning International Relation of International Organization And Region. Hereinafter practically, this research is expected usefull and benefit knowledge exchequer of concerning process of nations application in area of Western Balkan and specially Serbia in European Union.

The method used in this research is descriptive which aim to to depict the phenomenon European Union Enlargement on Western Balkan accompanied by the conditions which must be fulfilled by state which wish to join and also analyse its implication to Serbia which want to join and become the member of European Union. Descriptive is effort to know the background of desire appearance of European Union perform Enlargement in Western Balkan, and also analyse how its implication to Serbia that desire to join and become the member of European Union.

The result from this research is: With the existence of European Union Enlargement in Western Balkan accompanied with the conditions which must be fulfilled by nations which wish to join and become the member Uni Europe, making process of membership Serbia in European Union pursued. Lack of cooperation of Serbia in fulfilling demand from European Union represent the primary factor of cause pursuing of process of membership of Serbia European Union. Beside that, not yet finished of problem ratify the constitution of European Union make the enlargement issue become the very sensitive issue for Europe society so that European Union very taking a care in accepting new member. Thereby hence plan the membership Serbia in European Union will not be reached until Serbia can fulfill the demand from European Union with reference to arrest of war criminal of Ratko Mladic.
