

## ABSTRACT

**Dwi Lestari. "THE ROLE OF FULL DAY SCHOOL SYSTEM IN GROWING STUDENTS 'LEARNING SPIRITS ON PPKN LEARNING" (Descriptive Study at SMA 1 Gantar, Gantar district, Indramayu district).**

Before the implementation of the full day school system in the world of education, students who were required to be in school for 9 hours there were still many students who complained or were lazy to learn, especially with the implementation of a full day school system whose students were required to study at school for 11 hours with a time span from 07.00-16.00 WIB. To overcome the friction that might lead to disunity, each school applies several sanctions to improve the attitude and morale of the participants, one of the ways is to implement sanctions for anyone who violates school regulations. The objectives in this study are: 1) Knowing the situation in school in fostering the learning spirit of students in learning PPKn at Gantar 1 State High School. 2) Knowing the implementation of a *full day school* system in fostering the learning spirit of students in learning PPKn at Gantar 1 State High School. 3) Knowing the role of full day school system in fostering the learning spirit of students in learning PPKn at Gantar 1 State High School. 4) Knowing the obstacles that arise and the efforts made in fostering the learning spirit of students in learning PPKn at Gantar 1 State High School. This study used a descriptive study with qualitative approach, in this study the subject was the PPKn subject teacher and students of SMA Negeri 1 Gantar XIP MIPA 1 and IPS XII classes. Data collection and research instruments in qualitative methods, namely observation, interviews, questionnaires, study documentation. The results of this study are as follows: Through interviews, the role of the full day school system in fostering the spirit of learning participants play a role and help students in learning. And to improve student achievement by means of attractive learning models and adequate facilities and infrastructure. The questionnaire results that the writer describes, the situation at school in fostering the learning spirit of students at SMA Negeri 1 Gantar can be seen above in diagram 4.2 states 56.60% of students agreed that students like a fun learning atmosphere, while 44% answered agree. And to improve the learning spirit of students can improve learning achievement can be seen in diagram 4.5 states 0% doubt that learning achievement is not influenced by the learning spirit of students as much as 20.75% strongly agree, 24.53% agree, and 37, 74% disagree.
