**ABSTRACT**

The problem of this study is the low learning outcomes of students in learning in Theme 1 The Beauty of Togetherness Subtheme 1 Cultural Diversity of My People in Forth Grade of Sindangpanon primary school Banjaran district of Bandung. This study aims to determine the improvement of learning outcomes of students through the application of Problem Based Learning models in the learning of Theme 1 The Beauty of Togetherness Subtheme 1 Cultural Diversity of My People in Forth Grade. Subjects in this study were students of Theme 1 The Beauty of Togetherness Subtheme 1 Cultural Diversity of My People using the Problem Based Learning model. The implementation of this CAR is carried out in 3 cycles and each cycle is carried out with 2 meetings, at each stage that occurs for the learning outcomes of the students. The results of the study can be stated that in cycle I the average value of learning outcomes obtained by students was 68.7 which included in the category enough with the percentage of completeness reached 50% or amounted to 20 of the 40 students. In the second cycle the average value of learning outcomes obtained by students amounted to 73.6 which included in the good category with a percentage of completeness reached 73% or amounted to 29 of the 40 students. In cycle III the average value of learning outcomes obtained by students amounted to 83.5 which included in the good category with a percentage of completeness reached 85% or amounting to 34 of the 40 students. Thus it can be concluded that the application of the Problem Based Learning model can improve the learning outcomes of students in Thematic learning Theme 1 The Beauty of Togetherness Subteme 1 Cultural Diversity of My People in Forth Grade Sindangpanon primary school Banjaran District of Bandung.
