ABSTRACT

The background of this study is the low writing error of class X student affixes. This study aims to describe the ability of students in expressing exemplary figures of biographical texts by using the right affix writing in terms of form, function and meaning. The subjects of this study were students of class X IIS 5 of SMAN 1 Parongpong. The focus of this research is the assignment of assignments in the form of re-exemplifying exemplary bigrafi text figures in the form of written descriptions. The data collected amounted to thirty-four writings. The method used in this research is qualitative descriptive. After the data collected from the observations is described in writing. The analytical technique used by researchers is using the steps of classification, coding, correction, recapitulation, discussion, and conclusion. The results of the study were obtained twenty-eight which included in the affix writing errors. Frequent mistakes made by students are the writing of prefixes with a percentage of 41.93%, writing the confix in the 17.74 % writing, confix writing 12.90%, confix writing being 12.90%, writing suffixes - it is 3.22%, prefix writing is 3.22%, confix writing is 3.22%, confix writing is 1.61%. The results of the research data were strengthened by the presence of an interview with an Indonesian teacher class X IIS 5. The reason for the error in writing affixes on students was because students preferred to play games rather than pay attention to the teacher. In addition, efforts to overcome the problem of student affixes by the way the teacher gives exercises about affixation in the form of stories. Based on the evidence of the research data, it can be concluded that the writing error of the class X affixes is very low. Suggestions that can be submitted are the need for special guidance to students to minimize affix writing errors. Like giving practice questions and homework about affixation.

Keywords: Affix error, exemplary character, and biography text.
