

ABSTRACT

Based on the background described earlier, it can be concluded that the learning model used has an effect on student motivation and learning outcomes. This strengthens the author to apply the Discovery Learning learning model that can help grade VIII students of SMP Paundan 2 in increasing motivation and learning outcomes. In accordance with the title of this research, "The Implementation of Learning Model Discovery Learning To Increase Student Motivation and Learning Outcomes in Civics Subjects at Pasundan 2 Junior High School Bandung" (Classroom Action Research on the Material Position and Function of Pancasila as the state base and nation's life view Semester VIII Students 1 Pasundan 2 Middle School Bandung)

The research method used in this study is a classroom action research method, with a spiral model design of Kemmis and Mc. Taggart. Because the problem in this study aims to improve students' learning motivation in learning PPKn material, the position and function of Pancasila as the basis of the nation and the view of life of the nation, so that with the application of the Discovery Learning method students' learning and learning outcomes can increase
