

ABSTRACT

Telling in 2013 Curriculum is a speaking skill. Freedoms are used automatically. Media poster are learning methods through the development of photography and appreciation. Photography development and appreciation is carried out by students by acting as a living figure or on inanimate object. Therefore, the authors are interested in conducting research on how to make text using poster media in class X SMA PGRI 1 Bandung. The problems that the writer formulated are: 1) Can the writer implement, and re-discuss information about biographical texts by using media poster in class X SMA PGRI 1 Bandung? 2) Can students in class X SMA PGRI 1 Bandung give the contents of the biography text?; 3) Is it effective that poster media in retelling learning is biographical text? The purpose of this research is to know the ability of the writer, and the students, and the effectiveness of media posters. The hypothesis that the writer formulated is: 1) The author is able to do learning by using biographical text using poster media in class X SMA PGRI 1 Bandung; 2) Students of class X SMA PGRI 1 Bandung are able to re-read biographical texts using poster media; 3) Poster media can be used in biography learning in class X SMA PGRI 1 Bandung. The research method used is the experimental and control method of one group pretest posttest design with the techniques of majors, try, and test. The results of the research are: 1) Writing that is able to compile, implement, and discuss the contents of the biography text again using poster media in class X SMA PGRI 1 Bandung. This is evidenced by the average average and excellent ability (A); 2) Students in class X MIPA 2 PGRI 1 Bandung High School who are able to display the contents of the biography text again. This is evidenced by the average pretest score of 30 and the posttest average score of 6.2) or an increase of 9.38%; 3) Poster media can be used in learning to provide answers to biographical texts. This is evidenced by the statistical test $t_{count} \geq t_{table}$ that is $11.2 > 2.04$ in the 95% confidence level with a significant level of 5% and the degree of freedom 29. Based on these facts, the authors conclude the poster media that can be used in biographies in class X SMA PGRI 1 Bandung.

Keywords: Telling, speaking, biographical text, media poster.
