ABSTRACT

This study aims to find out: (i) How is the implementation of the Prakerin Program for students of class XII Accounting Skills Competency 2018/2019 in SMK PGRI 1 Cimahi, (ii) How is the readiness of working class XII Accounting Skills Competency 2018/2019 at SMK PGRI 1 Cimahi, and (iii) Is there an influence of Industrial Workforce on the work readiness of students of class XII Accounting Skills Competency 2018/2019 in SMK PGRI 1 Cimahi. The research method used is a survey with a subject amounting to 53 students of SMK PGRI 1 Cimahi. The analysis used is the verification of data analysis through calculating the average score. The results showed a summary of the average score of respondents' responses regarding: (i) industrial work practices of class XII in SMK PGRI 1 Cimahi of 4.15 (82.99%) in the category of "very good", (ii) work readiness of class XII students in SMK PGRI 1 Cimahi at 4.22 (84.46%) with the category "very ready". Based on the data analysis that has been done, the results of the study are the influence of industrial work practices on the work readiness of students of class XII Accounting Skills Competency 2018/2019 in SMK PGRI 1 Cimahi, through the calculation of the coefficient of determination with R Square value of 0.153. It can be interpreted that the influence of apprenticeship has a contribution of 15.3% to student work readiness and the remaining 84.7% is influenced by other factors. The author suggests to the relevant parties, namely: (i) for the school, it is expected to be able to provide training apprenticeship earlier and routinely in daily learning at school, (ii) for students, students are expected to be diligent in following career guidance programs both at school and outside of school, (iii) the next researcher is expected to be able to perfect the research that has been done with a broader range of objects and develop other variables that can affect student work readiness.

Keywords : Industrial Work Practices, Work Readiness.
