ABSTRACT

This research was conducted at SMP Negeri 33 Bandung with the aim of knowing the ability of students in learning to write. Writing is a productive activity, because in the process it will eventually produce a writing. Review text is a text contains an assesment of something reviewed. Poetry is a literary work that uses meaningful words in it. In this study, researchers made planning, implementation, and evaluation of learning to retell the contents of the review text on poetry quality in class VIII students of SMP Negeri 33 Bandung. The researcher used the demonstration method on the learning in the hope that it could improve the writing skills of the students and know effectiveness of the demonstration method in learning. The researcher used two tests in carrying out this research including, initial test or pretest and final test or posttest. The data collection techniques conducted by researcher include, observation, tests, literature studies, and trials. The result obtained by researchers in conducting this study were then processed using the IBM SPSS Statistic 25 application. The value obtained in planning and implementing learning was 2,7. Learning to retell the contents of the text of the review on the quality of poetry works using the demonstration method in class VIII students of SMP Negeri 33 Bandung changed from the initial average value of 16,08 and changed to the final test to 85,48. This proves that the ability of class VIII students of SMP Negeri 33 Bandung has increased in the learning process.
