ABSTRACT

This research is motivated by the difficulty of reading skills in students. Lack of reading skills, especially in analyzing the linguistic aspects of biographical texts. The purpose of this study was to determine the ability of the author in planning, implementing and assessing learning activities analyzing aspects of language in biographical texts using the treffinger model; knowing the ability of students to analyze linguistic aspects in biographical texts using the treffinger model; and knowing the effectiveness of the treffinger model used in learning to analyze aspects of language in biographical texts. The method used in this study is the quasi-experimental method with the design of one group pretest-posttest design. Data collection techniques used include: observation, trials, and tests. The results of the research are as follows, the author is able to plan, implement, and evaluate learning to analyze aspects of language in biographical texts using the treffinger model in class X SMA Nusantara Bandung. This is evidenced by the average value of planning and implementation of learning obtained by the author of 3.74 included in the excellent category (A). Students of class X SMA Nusantara Bandung are able to analyze linguistic aspects in biographical texts using the treffinger model. This is evidenced by the average value of pretet of 39.4 and the average posttest of 89.45, an increase of 50.05. treffinger models are effectively used in learning to analyze linguistic aspects in biographical texts in class X SMA Nusantara Bandung. This is evidenced by the statistical test \( t_{\text{count}} > t_{\text{table}}, \) which is 24.77 > 18.5 in the 95% confidence level with a significance level of 5% and the degree of freedom 19. Based on the results of these studies, the authors concluded that there was success in the study.

Keywords: Analyzing, biographical texts, linguistic aspects, reading, treffinger models.
