ABSTRACT

The purpose of this study was to find out how entrepreneurship education, student entrepreneurship attitudes and the influence of entrepreneurship education on the formation of student entrepreneurship attitudes (studies in class XI AKL 1 SMK Negeri 11 Bandung) methods used in this study were survey methods with samples of accounting students AKL 1 class at SMKN 11 Bandung, amounting to 36 students. Analysis of the data used is simple linear regression analysis by calculating the average score. The results of the study showed a recapitulation of the average score of respondents' responses to entrepreneurship education by 3.67 (73%) or "often / strong" and the formation of entrepreneurial attitudes at 3.76 (75%) or "agreed / strong". Based on the data analysis that has been done, the results show that entrepreneurship education has a positive effect on the formation of entrepreneurial attitudes. This is indicated by a T_{hitung} value of 4.959 with a significance value of 0,000. While based on the calculation of the determination test R^2 value is equal to 0.420. This can be described that the variable X has an effect of 42% on the Y variable and the remaining 58% is influenced by other factors. As the end of the study the authors give suggestions to related parties namely: (1) For students it is expected that students can be sincere in entrepreneurship and students must begin to realize the importance of entrepreneurship. (2) Teachers are expected to be more intensive teachers in controlling and guiding students to be more focused on entrepreneurship. (3) For schools it is expected to give advice to their students regarding the importance of entrepreneurship education and provide facilities that support students to develop the business of their students. (4) The next researcher is expected to examine other factors and different topics so as to obtain various alternatives to increase and increase knowledge related to other factors besides entrepreneurship education in improving student entrepreneurial attitudes.

Keywords: Entrepreneurship Education and Formation of Entrepreneurship Attitudes
