

## *ABSTRACT*

This study is entitled "The Effect of Integrity, Objectivity, Confidentiality and Competence on Internal Auditor Performance". This study aims to determine the magnitude of the Effect of Integrity, Objectivity, Confidentiality, and Competence on the Performance of Internal Auditors in Bandung Inspectorate Inspectorate.

The research method used is descriptive and verification methods. The analysis used is a simple linear regression analysis to find out the equation of Integrity, Objectivity, Confidentiality, and Internal auditor Competence; correlation analysis to find out the relationship between Integrity, Objectivity, Confidentiality, and Internal auditor Competence with Internal Auditor Performance; coefficient of determination to determine the effect of the influence of Integrity, Objectivity, Confidentiality, and Competence on Internal Auditor Performance and hypothesis testing (t-test) to determine the significance of Integrity, Objectivity, Confidentiality, and Competence on the Performance of Internal Auditors with the help of IBM SPSS 25 Version For Windows.

The results showed that Integrity on the Performance of Internal Auditors had a significant effect with a contribution of 36.3% then Objectivity on the Performance of Internal Auditors had a significant effect with a contribution of 39.0% then Confidentiality on the Performance of Internal Auditors had a significant effect with an effect contribution of 49.3 % and the Competence of Internal Auditor Performance has a significant effect with a contribution of 30.6%.

Keywords: Integrity, Objectivity, Confidentiality, and Competence, Internal Auditor Performance
