ABSTRACT

This class action research was conducted with the aim of improving student learning outcomes through the Problem Based Learning model on the sub-theme of the diversity of my nation's culture. The author conducted a class action in class IVE 066 Halimun Bandung Bandung City. This research is motivated by the learning process is still centered on the teacher, the lack of understanding of students during learning, students lack the caring attitude towards friends and the environment when learning and learning outcomes are low. This study uses a Classroom Action Research system that consists of planning, implementing, observing, and reflecting. This research was conducted in 3 cycles each cycle consisting of 2 learning. In this study the instruments used by researchers were test sheets, observation sheets and interview sheets. Based on research results show that by applying the Problem Based Learning model can improve student learning outcomes. This can be seen from the first, an increase in the preparation of learning implementation plans (cycle I reached 77%, cycle II reached 88%, cycle III reached 95%. Second, there was an increase in the implementation of learning (cycle I reached 76%, cycle II reached 83% , cycle III reached 90% Third, there was an increase in knowledge learning outcomes (Cycle I pretest 36% posttest 54%, cycle II pretest 57% posttest 71%, cycle III Pretest 86% posttest 93%.Fourth, there is an increase in caring attitude (Cycle I reaches 34%, ycle II reaches 64%, cycle III reaches 95%. Fifth, there is an increase in comprehension (Cycle I reaches 40%, cycle II reaches 68%, cycle III reaches 93%. The conclusion obtained from this study is that the application of the Problem Based Learning model on the theme of the beautiful togetherness sub-theme of the diversity of my nation's culture can improve caring attitudes and student learning outcome in class IV SDN 066 Halimun Bandung.
