This research was carried out based on the lack of writing skills in concluding poetic content. This study aims to determine the success of the author in planning, implementing and evaluating learning to conclude the contents of poetry focusing on the meaning of connotation by using the Fleming model in class VII students of SMP Negeri 1 Ketanggungan and to determine the ability of students to conclude the poetry content focused on the meaning of connotation with the Fleming model on Grade VII students of SMP Negeri 1 Ketanggungan 2018/2019 academic year and to find out the effectiveness of the fleming model. The method used in this study is a quasi-experimental design using one group pretest-posttest design. Data analysis techniques used in this study include: observation, trials and tests. The results of the study are, the author is able to plan, implement and evaluate learning to conclude the contents of poetry focusing on the meaning of connotation by using the fleming model in class VII students of SMP Negeri 1 Ketanggungan Brebes. This can be proven by the average value of planning and implementing learning obtained by the author of 3.74 very good (A). Grade VII students of SMP Negeri 1 Ketanggungan Brebes were able to deduce the contents of poetry focusing on the meaning of connotation using the fleming model. This can be proven from the average initial test score of 24.75 and the average value of the final test of 87.27, an increase of 168.97%, the effective fleming model used in learning to conclude poetic content in grade VII students of SMP Negeri 1 Ketanggungan Brebes . This can be proven by the statistical test $t_{(count)} > t_{table}$, which is $39.72 > 35.1$ in a 95% confidence level with a significance level of 5% and a degree of freedom 36. Based on the results of the study, it can be concluded that there is a success in the study .
