ABSTRACT

This research is motivated by the low political participation of novice voters in the daily environment such as irresponsible, less critical attitude, being indifferent when deliberating, less daring to express opinions, but there are also those who are reluctant to use their voting rights . OSIS is a program that is run as a forum to instill political participation of students because through OSIS, students can learn to democracy even though it is still limited in scope . The research aims to determine the effect of OSIS on the political participation of novice voters.

The research method used in this research is quantitative research methods with the type of survey. The research sample taken in this study amounted to 151 samples which are students of class XI at SMAN 1 Ligung. The data in this study were obtained through documentation, questionnaires, and interviews. Data processing techniques performed using descriptive statistical tests, normity tests, linearity tests, and hypothesis testing. The results showed that the student council activity had a good category in 20 questionnaire statements consisting of 4 indicators obtaining an average picture of the quality of student council activity at 74.45%. Based on the results of interviews conducted any research, students siswinya give a positive response, they support the programs carried out by the council and participated didalamnya. Terdapat OSIS activities terhadap influence political participation voters with a simple regression equation $Y = 44,233 + 0,179X$, visible also from the correlation coefficient of 0.161 or 16.1%. There is a significant influence between OSIS activities on the political participation of novice voters obtained from the value (R Square) of 0.026 or 2.6%, which means OSIS activities have an influence of 2.6% on the political participation of novice voters. The attitude of students towards OSIS activities can be seen from the results of descriptive analysis on indicators of involvement in OSIS activities obtaining an average value of 73.61 in the good category, so the attitude of students in the activities carried out by the OSIS is said to be good.

Keywords: OSIS, political participation of novice voters.
