The purpose of this research to find out : (i) How to describe the process of scout extracurricular activities at SMA Pasundan 8 Bandung, (ii) What is the level of student learning discipline at SMA Pasundan 8 Bandung, (iii) How much influence scout extracurricular activities have on student learning discipline in class X MIPA at SMA Pasundan 8 Bandung. The research method used was a survey using a quantitative approach with 63 sample in class X MIPA students of SMA Pasundan 8 Bandung. The data analysis used is a simple linear analysis by calculating the average score with the help of the IBM SPSS Statistics Version 24.0 for windows program. The results showed a recapitulation of the average score of respondents responses regarding (i) an overview of the scout extracurricular activity process, which is 4.37 (87%) in the “very good” category. (ii) student learning discipline is 4.55 (91%) in the “very good” category. (iii) simple linear regression results show that there are great influence of scout extracurricular activities on student learning discipline at SMA Pasundan 8 Bandung. By calculating the coefficient of determination it is known R Square value of 0.44. It can be interpreted that scout extracurricular activities have a 44% influence to student learning discipline with the category “strong enough” and some of the amount 56% influenced by other factors. The researchers suggests to the relevant parties namely (i) it is hoped that the Pasundan 8 Bandung High School will be more supportive of the implementation of scout extracurricular activities, starting from facilities and infrastructure and supporting students to participate in scout extracurricular activities, (ii) hopefully teachers in SMA Pasundan 8 Bandung provides more understanding to students that discipline in learning can be started through scout extracurricular activities, (iii) it is suggested to all students at SMA Pasundan 8 Bandung to take part in scout extracurricular activities because of the many benefits students will get, (iv) to Researchers who will conduct research in the same field are advised to examine more sources and references related to scout extracurricular activities and student learning disciplines so that the results of the research carried out can more precise.
