*Poetry "Aku" is the peak of Chairil's maturity achievement in poetry. Apart from that, the meaning contained in the poem "Aku" there are several things that must be learned from the figure of Chairil Anwar, especially in the generation 45 who lived in the era of Indonesian independence. In the '45 generation', of course, they have experienced a very real life with the initial struggle for the independence of the Indonesian state. This is a reflection of how passionate Chairil Anwar is to fight for life and does not want to be limited by time during his life. Apart from analyzing the ideology contained in the poem “Aku” by Chairil Anwar, this research also analyzes the feasibility of the poetry being used as teaching material. In learning to write poetry, one must find thoughts that express, values, orientations, and tendencies that complement each other so as to form perspectives of ideas expressed through communication with written media in the form of poetry. Thus, it can be concluded that the ideology in the poem "Aku" by Chairil Anwar can be used as an alternative teaching material in high schools, especially in the material of poetry in learning Indonesian. To find out the ideology contained in the poem "Aku" by Chairil Anwar and the poem can be used as teaching material in schools, researchers use qualitative research, while to obtain the data obtained, the researcher uses data collection by means of documentation study and literature study so that this research can be resolved and trusted.*
