ABSTRACT

A biography is a text that tells a person's life story. In the biographical text, there are supporting elements. One of the elements contained in the biographical text is the element of exemplary. This study will analyze the exemplary elements contained in Buya Hamka's biographical text entitled Personal and Martabat Buya Hamka by Rusydi Hamka. Then after the analysis process is carried out, the data from the results of the analysis will be used as an alternative for selecting Indonesian language teaching materials in class X. Based on this, the authors are interested in conducting a study with the following title "Analysis of Exemplary Elements in Buya Hamka's Biographical Text as an Alternative for Material Selection. Teach Indonesian in Class X". After the results of the analysis are obtained, then the data will be reviewed in accordance with the demands of the 2013 Curriculum to determine whether the teaching material is in conformity with the demands of the 2013 Curriculum. Then after the assessment process is complete, the next step is the writer will make the teaching material module. After the teaching material module has been made, the next process will be validated to determine whether the teaching material is appropriate or not used as teaching material. In this study the authors used a qualitative research approach which included documentation, literature study, and analysis. The results of the author's analysis on Buya Hamka's biographical book entitled Personal and Dignity of Buya Hamka by Rusydi Hamka. In the book the authors found the exemplary element of speech was 19%, the exemplary element of attitude was 42%, 11% of exemplary behavior, 17% of exemplary decision, and 11% of exemplary action. Based on these results, the exemplary elements contained in Buya Hamka's biographical text are appropriate to be used as an alternative teaching material, because the results of the teaching materials have met all aspects of the 2013 Curriculum requirements which include KI, KD, material / content, language, and psychological development. These results were carried out by the two validators related to the teaching materials, and the average score was 80 from the assessment of the two validators, so the teaching material got a good category and was worthy of being used as an alternative teaching material.

Keywords: *Biographies, examples, teaching materials.*
