ABSTRACT

This research is motivated by the low learning outcomes of students due to the less than optimal use of learning media. So that in the learning process students are less enthusiastic, less motivated, and less interested in participating in learning. One of the media that attracted the attention of researchers to be analyzed was comics. Because there are many advantages and uniqueness of comics that have positive values and can be used as learning media. The purpose of this study is to describe the results of the analysis and study of the use of comics as a learning medium to improve student learning outcomes in elementary schools. This research is a research library (library research) which examines various literatures such as books, magazines, journals and scientific articles on relevant topics. Data collection techniques in this library research are using documentation techniques. Based on the results of this library research, it can be concluded that the use of comics as a learning medium has a positive effect on student learning outcomes. This is evidenced by the various pretest and posttest scores carried out in high and low classes through various journals studied. This states that of the learning outcomes of students have increased and are significantly in the high category. So it can be concluded that the learning outcomes of students through the use of comics as a learning medium have a positive influence.

Keywords : *Learning media, Learning outcomes, Comics*
