ABSTRACT

Low interest in continuing education going to college is one of the problems that is influenced by the economic conditions of parents. The problems studied in this study are (i) What is the economic condition of parents in continuing their education to higher education for class XII students in the odd semester of T.A 2021-2022 Catholic High School Brothers St.Gabriel Nunukan? (ii) What is the level of motivation to continue higher education for students in class XII odd semester T.A 2021-2022 Catholic Senior High School St. Gabriel Nunukan? (iii) How big is the influence of parents' economic conditions on the motivation to continue their education to higher education in class XII students in the odd semester of the 2021-2022 academic year at St.Gabriel Nunukan Catholic High School? The population in this study were students of class XII social studies, science and language programs at the Catholic Senior High School of St.Gabriel Nunukan, totaling 103 students. Sampling of 82 students using proportional random sampling technique. This study uses a quantitative approach with survey methods and descriptive analysis with data collection techniques in the form of a questionnaire. The results of the study show: (i) the results of the economic conditions are with an average score of 2.69 with a percentage of 46.23% with the average interpretation criteria being quite good, (ii) the level of motivation of the results with an average score of 3.89 with good interpretation criteria. , (iii) The magnitude of the influence of economic conditions is considered strong giving an influence on motivation of 68.3% with strong interpretation criteria. The hypothesis in this study is proven that "there is an influence of the economic condition of parents on the motivation of students in continuing their education to college"..
