1. This The theme chosen is very interesting, but I have not seen the novelty of this article, so the author must show it so that this article is worthy of publication in the Asian Sociology by MDPI Publisher.
2. Literature review is not a description of definitions, but looks at previous research to position your research.
3. The research method has not been described in detail, therefore it is necessary to describe it in detail up to the analysis of the data used.
4. The results and discussion are still superficial and need deepening by comparing with previous studies so that the novelty of the research results can be seen, this is very important.

Reviewer 2

1. In the introduction, please indicate why this research is important or urgent to do regarding the vacuum of literature, so that the position of this article is very clear as new.
2. The theory used is still general and must be made specific to explain the phenomenon under study.
3. Results and discussion need to be complemented by in-depth qualitative interpretation and comparison with previous findings.
