**ABSTRACT**

*Program Keluarga Harapan (PKH) is one of the government's efforts to alleviate poverty through increasing access of the poor families to education and health facilities. This study aims to analyze the impact of Program Keluarga Harapan (PKH) and the role of social workers on improving the quality of education and health of beneficiary families in Rancaekek Bandung. This study is a survey research with a quantitative descriptive approach. Data analysis method used is path analysis. The results of this study show that Program Keluarga Harapan (PKH) and the role of social workers have a positive and significant effect on improving the quality of education and health of beneficiary families in Rancaekek Bandung.*

**Keywords :** *Program Keluarga Harapan (PKH), the role of social workers, education, health.*
