This study aims to describe: (1) The use of Whatsapp as a learning medium in the network during the covid 19 pandemic in class VI B SD Biruni Sungailiat Bangka, (2) The obstacles that occur in the use of Whatsapp as a learning medium in the network during the Covid 19 pandemic in Indonesia. Class VI B SD Biruni Sungailiat Bangka (3) Solutions to overcome obstacles in the use of Whatsapp as a learning medium in the network during the Covid 19 pandemic in class VI B SD Biruni Sungailiat Bangka. This research was conducted at SD Biruni Sungailiat Bangka in September 2021. This type of research is qualitative descriptive with a phenomenological type of research that describes the use of Whatsapp as a learning medium in the network during Covid 19 pandemic. The data from this study were obtained through interviews with 4 students of class VI

B. observations in the form of passive participation observations and documentation as supporting data from the interviews. The results of the study show that teachers have used Whatsapp as a learning medium in supporting online learning activities by utilizing various available features such as photo, video, document and video call features. Then in the implementation of the use of Whatsapp as a learning media, there are several obstacles namely signal interference, full cellphone memory, lack of interaction, difficulty knowing the seriousness of student learning, lack of student motivation to learn, online learning support facilities, and difficulty understanding the material provided, as well as in research. This describes the solutions taken to overcome the obstacles that occur from the use of Whatsapp as a learning medium in the network during the Covid 19 pandemic. From the results of this study, it is recommended that educator be able to make learning variations, especially by using the features on whatsapp mastering and using ICT in the online learning process
