

## **ABSTRACT**

The COVID-19 pandemic that has occurred since 2019 has caused many unprecedented disruptions in certain sectors, for example in the education sector, the disruption in this sector has finally affected the learning process of children in Brazil, because after this pandemic started many schools there, which began to close in mid-March 2020, so that eventually it had an impact on 37 million children's education there from elementary school to high school. During the closure of this school, of course the government there will not remain silent. With the help of UNICEF they have also made various efforts to help children in Brazil not to drop out of school. This thesis will try to describe things like how the role of UNICEF in supporting children's education, to find out the teaching and learning process in Brazil during pandemic, and how UNICEF effort to support distance learning in Brazil

Keywords: Pandemic, COVID-19, UNICEF, Brazil, Children Education
