Dear Editor
Political Science and International Relation presents
(RES MILITARIS Journal)

We have read and use scientific articles published in RES MILITARIS Journal.

The performance of the RES MILITARIS Journal was excellent, and the published article helped us conduct research and write scientific reports.

I am Aang Rahmatulloh represent other authors, Lecturer from STISIP Syamsul Ulum, Sukabumi, Indonesia.

We have completed a scientific article entitled "**Strategy for Implementing the Sukabumi Village Entrepreneurship Center (Sukabumi Kece) Policy in Sukabumi City**".

We hope this article can be published in the RES MILITARIS Journal because exciting findings in the scientific report can become new treasures in science, especially in social sciences.

We are willing to go through the review process following RES MILITARIS Journal standards.

Best Regards,

Aang Rahmatulloh
STISIP Syamsul Ulum, Sukabumi, Indonesia

RES MILITARIS values your contribution, and I look forward to receiving your revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. Clarify the research objectives: The abstract should clearly state the specific objectives of the study. In this case, it would be beneficial to explicitly mention the main goal of the research, such as identifying effective strategies for implementing the Sukabumi Kece policy in poverty-stricken areas of Sukabumi City.
2. Provide more details on the qualitative approach: Since the research utilizes a qualitative approach, it would be helpful to provide additional information about the data collection methods, such as interviews or observations. Elaborate on how the qualitative data was analyzed to derive the findings and support the conclusions.
3. Expand on the factors causing ineffective implementation: The abstract briefly mentions some factors contributing to the ineffective implementation of the Sukabumi Kece policy. It would be valuable to elaborate on each factor (a, b, c, d, e) and provide specific examples or evidence to support these claims. This will enhance the credibility of the study.
4. Discuss the significance of the strategies: The abstract mentions several strategies that the local government can implement to address the implementation problems of the Sukabumi Kece policy. It would be beneficial to explain the rationale behind each strategy and discuss how they can effectively overcome the identified challenges. Additionally, mention any potential limitations or considerations associated with implementing these strategies.
5. Include the potential impact of the study: Conclude the abstract by briefly highlighting the potential implications or impact of the research findings. Discuss how the identified strategies, if implemented successfully, can contribute to poverty reduction, institution strengthening, and welfare improvement in Sukabumi City. This will provide a broader context and emphasize the importance of the study's outcomes.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Aang Rahmatulloh, et. al.
STISIP Syamsul Ulum, Sukabumi, Indonesia

Thank you for your efforts to make improvements to your article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. Enhance the abstract structure: The abstract can benefit from a clearer and more structured presentation. Consider organizing the abstract into distinct sections, such as the research objective, methodology, findings, and proposed strategies. This will make it easier for readers to grasp the main points and flow of the study.
2. Provide more context on Sukabumi City: To improve the understanding of the research, it would be helpful to provide a brief overview of Sukabumi City, including its socio-economic background and the significance of addressing poverty in this specific context. This will add relevance and contextual information to the study.
3. Elaborate on the methodology and data analysis: While the abstract mentions the qualitative approach and descriptive method, expanding on the specific techniques used for data collection and analysis would be beneficial. Discuss the sample size, selection criteria, and how the data was analyzed to generate the results. This will enhance the transparency and validity of the study.
4. Strengthen the link between strategies and implementation challenges: When discussing the strategies to overcome implementation problems, explicitly connect each strategy to the identified challenges (factors a, b, c, d, e). Explain how each strategy addresses a specific challenge and provide evidence or examples of successful implementation in similar contexts if available. This will strengthen the practical relevance and feasibility of the proposed strategies.
5. Consider including implications and recommendations: In addition to discussing the strategies, it would be valuable to include a section on the potential implications and recommendations based on the study's findings. Highlight how the proposed strategies can contribute to poverty reduction efforts and suggest any additional steps or considerations for successful policy implementation. This will provide a more comprehensive and actionable conclusion to the study.

Articles that have been revised and please send them back via this email.
