Got me, got me, got me

I pretended not to know it again on the way past
I knew I wouldn't be able to get out, but I got caught again.
I'm caught in a sticky net.
(Criminal) Deadly poison has already spread

No escape, missing sensation can't feel my fingers
You got me wrapped up around your fingers
I'm drunk with your touch that has captivated me
I want it more, I need it more
Poison spreading, potion poisoned
The sense of threat to be vigilant is gone.

Got me, got me, got me

(Pew, pew, pew)
Yeah, spider, you got me locked up, ayy
Tied alive (trap, trap, trap), gulp, ayy
Urgent state emergency siren ringing, you got me like Harley
Feeling like you're in a dangerous game rather than fear.

I'm tense every day, I'm nervous tomorrow
I don't know when you're going to catch me, I'm serious.
Next to you, above you, behind you, all around you
It's more than caught in a spider's web, it's twisted, uh
Your body trembling under the threat of predators, your pitch black
I'm crushed by the Force, but I'm distracted by the sight of it

No escape, missing sensation can't feel my fingers
You got me wrapped up around your fingers

I'm drunk with your touch that has captivated me
I want it more, I need it more
Poison spreading, potion poisoned
Gone is the sense of threat to be wary

Rushing hurricane (peeking)
Why the urgency? I'm tied up tightly, but in front of you
I can't escape, I can't get out of here, where are I (woo)
Caught up in the atmosphere that overwhelms the surroundings, I'm your prey

The radius of action gets narrower the more you move.
The best anti-war appearance is a trap
Poison loading, injected
Turn around faster and faster trapping poison in your body
From the head with this spider web
Bewilderment wrapped up in toe
Goosebumps and shivers
Even if you try to run away, you already have

Got me, got me, got me

Caught in a spider's web, caught in a spider's web
I haven't gotten out of it yet (got me, got me, got me)
Caught in a spider's web, caught in a spider's web
I have no intention of getting out (got me, got me, got me)

MANIAC

Let's go
Relax everyone, stop pretending to be normal
All of your smiles look weird
When the Lock is released, we're all the same
Your eyes can't fool me, ho

The real self has been released
Barely holding on
After blinking once, back
Again, back to cosplaying as what society defines normal to be ppow

Mash up, mind blown put my mind on back up
Prototype, on the inside I'm always a freaky monster
Kindness is no longer trending, now rotten
You can backbite me as much as you want, I'll ignore them anyway

Poppin'
If you think I'm just pure and innocent, you're wrong
When a favor continues, people think it's their right, toxic
This is what drives me crazy, warning

MANIAC
Going crazy, like I have a loose screw MANIAC
Spinning, going crazy
MANIAC Walk like Frankenstein
MANIAC MANIAC Haha

MANIAC (Oh)
Laugh like I have a loose screw MANIAC
(You can't stop the smoke)
Spinning, going crazy (Thick as fog)
MANIAC a MANIAC group (We're MANIACS)
MANIAC MANIAC

Like the seam of a torn doll
Eventually, you'll expose your real self
In this not easy life
It ain't "live" it's "holding on" yeah

Relax everyone, stop pretending to be normal
All of your smiles no fresh
When the Locket is open, we're all the same
Your eyes can't fool me, ho

This street I'm walking on is a minefield
Like a dormant volcano, never know when it'll all explode
Never know when the calm winds will change
Everyone lives hiding themselves like a sealed tornado

Poppin'
If you think I'm just pure and innocent, you're wrong
When a favor continues, people think it's their right, toxic
This is what drives me crazy, warning

MANIAC
Going crazy, like I have a loose screw MANIAC
Spinning, going crazy

MANIAC MANIAC Haha

MANIAC (Oh)
Laugh like I have a loose screw MANIAC
(You can't stop the smoke)
Spinning, going crazy (Thick as fog)
MANIAC a MANIAC group (We're MANIACS)
MANIAC MANIAC

Eyes filled with lunatic
All senses are tense
Locked up while wrapped up in that pretty package
As time goes by, it'll eventually be revealed
The inner self that was hidden yeah

MANIAC
MANIAC (MANIAC)
MANIAC
MANIAC MANIAC
You cannot stop with this feeling

MANIAC (Oh)
Laugh like I have a loose screw MANIAC
(You can't stop the smoke)
Spinning, going crazy (Thick as fog)
MANIAC a MANIAC group (We're MANIACS)
MANIAC MANIAC

LONELY ST.

Walking down the street falling down, I'm falling down
The street is desolated
I'm also blackout if I get a spaced out
The street is isolated

Still astray, ayy-ayy-ayy
Astray, ayy-ayy-ayy-ayy-ayy-ayy
Astray, ayy-ayy-ayy
Just stuff it all 'cause I'ma go on my way

A night to close your eyes for a moment
I can't see anything anyway
What did they expect?
It's the same when you open your eyes
This is a secluded road with no light
The street lights were broken a long time ago
The soles of the shoes that have been torn down
The footprints are soon erased

I think I'm going to collapse from exhaustion
I don't think I'll be able to go any further
You took a lot away from me, but ayy
This is the last way I walked
Come now and don't comfort me, I'm still on my way

Walking down the street falling down, I'm falling down
The street is desolated
I'm also blackout if I get a spaced out
The street is isolated

Still astray, ayy-ayy-ayy
Astray, ayy-ayy-ayy-ayy-ayy-ayy
Astray, ayy-ayy-ayy
Just stuff it all 'cause I'ma go on my way

Every day and night, I'm walking
It's darker at night when you walk alone
Lonely but the lone king
Draw your sword, my path I draw, true
Towards the sunset but I'm blue
I don't see even with the moon
I'm still astray, I'm still astray, ayy, ayy

I think I'm going to fall again
I don't think I'll be able to go any further
You took a lot away from me, but ayy
This is the last way I walked
Come now and don't comfort me, I'm still on my way, ayy

Walking down the street falling down, I'm falling down
The street is desolated
I'm also blackout if I get a spaced out
The street is isolated

Still astray, ayy-ayy-ayy
Astray, ayy-ayy-ayy-ayy-ayy-ayy
Astray, ayy-ayy-ayy
Just stuff it all 'cause I'ma go on my way

MUDDY WATER

Uh, rain falling on my face and washing off that sweat off
Making me cleaner than the dirt on my high top
I suffer from the words you throw at me, but makes me tougher
Energetic youngster like me loves playing in muddy water

Looking back at what you said behind my back
Doesn't matter 'cause I'm a winner, strong believer
24/7 with the members scoring goals like a team player
I execute the shadows all around me, call me demon slayer

When you like the right choice, whatever is new
You don't have to wear drab sneakers
"Double Knot" If you tie it tightly and walk confidently
I'm standing behind what was in front of me.

It's also a measure of who you blame
I never pay a tee, so I don't have much childish stuff
Resenting you is also a measure of hurting
Step on the mud that has all been splashed and run only looking ahead

Feeling so fly, feeling so fly
Feeling so fly, feeling so fly
This my lifestyle, this my lifestyle (hey)
I'm breathing, working, moving, sit down, and listen for once

Rainwater that falls after stagnant water dries up
It doesn't change everything in this world.
You get soaked without even realizing it
Fresh air instead of turbid air, brrr

muddy water (muddy, muddy, muddy, muddy water)
Muddy water (don't muddy the water, turn it off)
Muddy water (stagnant water goes away)
This is our flow, just step off the show
muddy water (muddy, muddy, muddy, muddy water)
Muddy water (don't let it pool, let it flow)
Muddy water (stagnant water goes away)
This is our flow, just step off the show

Let's chew the gum that has lost the honeydew
Because it only hurts my mouth, like spitting rap, uh

Even if you are sloppy, your deeds must be measured by a ruler
To you who emit a stinking stinking saliva I fried Febreze

The rain that fell a long time ago is still stagnant
Speed bumps that stop you from moving forward
I'm tired of squeaking and squeaking again
The soles of my feet are already glued to this floor, sticker, uh

Stagnant water
The culprits of quite turbid water pollution
Hurriedly evacuate and flow down
It is urgent to find out the truth about the damage again

Everybody's full of evasion skills, and I don't know, so the fault is yours
I feel like I've eaten 100 sweet potatoes plus a bucket of sweet potatoes.
Look at the head up, dig it all up, pick up the shovel, close the lid in a group
Clean the streets today I'm in charge of cleaning

Feeling so fly, feeling so fly
Feeling so fly, feeling so fly
This my lifestyle, this my lifestyle (hey)
I'm breathing, working, moving, sit down, and listen for once

Rainwater that falls after stagnant water dries up
It doesn't change everything in this world.
You get soaked without even realizing it
