

## ABSTRACT

**Widya Chaerunnissa Januar A. (2025). *The Role of Pancasila Education in Shaping Students' Social Ethics in the Digital Era (A Case Study of Grade VIII Students at SMP Pasundan 3 Bandung)*.**

*Education aims not only to produce intelligent individuals but also to shape morally upright and ethical human beings. Pancasila Education plays a strategic role in instilling moral and ethical values in students, especially in the digital era marked by challenges such as misinformation, cyberbullying, and declining morality. This study aims to analyze the role of Pancasila Education in shaping students' social ethics at SMP Pasundan 3 Bandung. Based on preliminary data and observations, students often encounter situations reflecting a lack of understanding of ethical values, both in direct and digital interactions. By strengthening Pancasila values such as responsibility, tolerance, and respect, students can be guided to use technology wisely and exhibit positive behavior. This study is expected to provide recommendations for developing Pancasila Education curricula and enhancing teacher competencies to create a conducive learning environment while fostering a generation that is moral, ethical, and responsible.*
